
MASS SHOOTINGS IN THE US FROM 1999-2019

The Data

Mother Jones - Mass
Shootings Database

About the Data

The data for this project comes from and is maintained by Mother Jones.

Incidents

Originally, the database contained 118 incidents from 1982 to present day, but I have reduced the number of incidents to 91 which spans 1999 to 2019.

Layout

Webpage/Narrative Style

Background color - Light Grey

Text style - Verdana,
sans-serif

Visuals

Map - display the locations of the 91 incidents

Tree map - total victims

Bar chart - shooting location

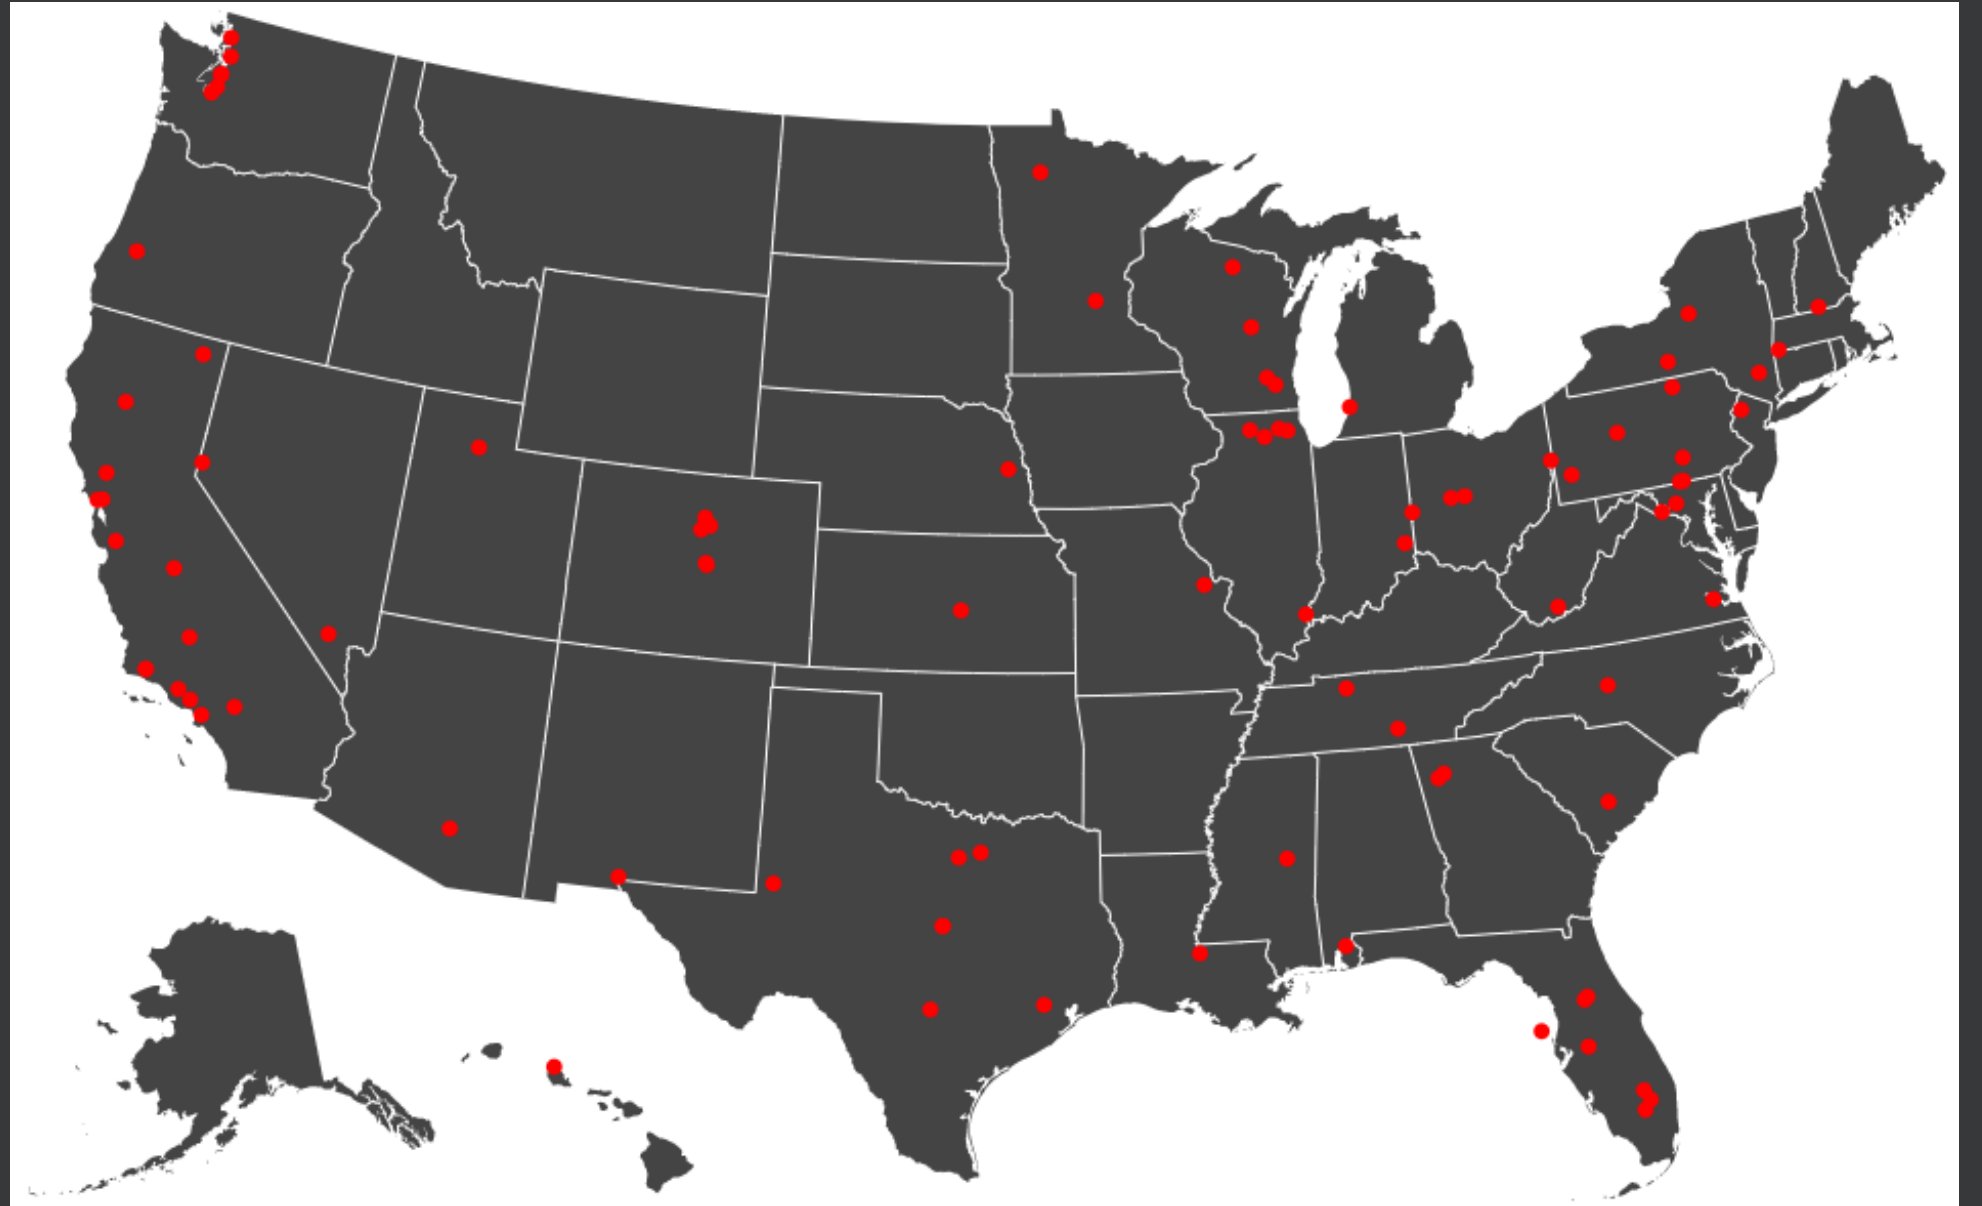

Pie chart - shooter's race

Text

Text that will be used on the webpage will be used to suppliment and summarize the visuals for the narrative.

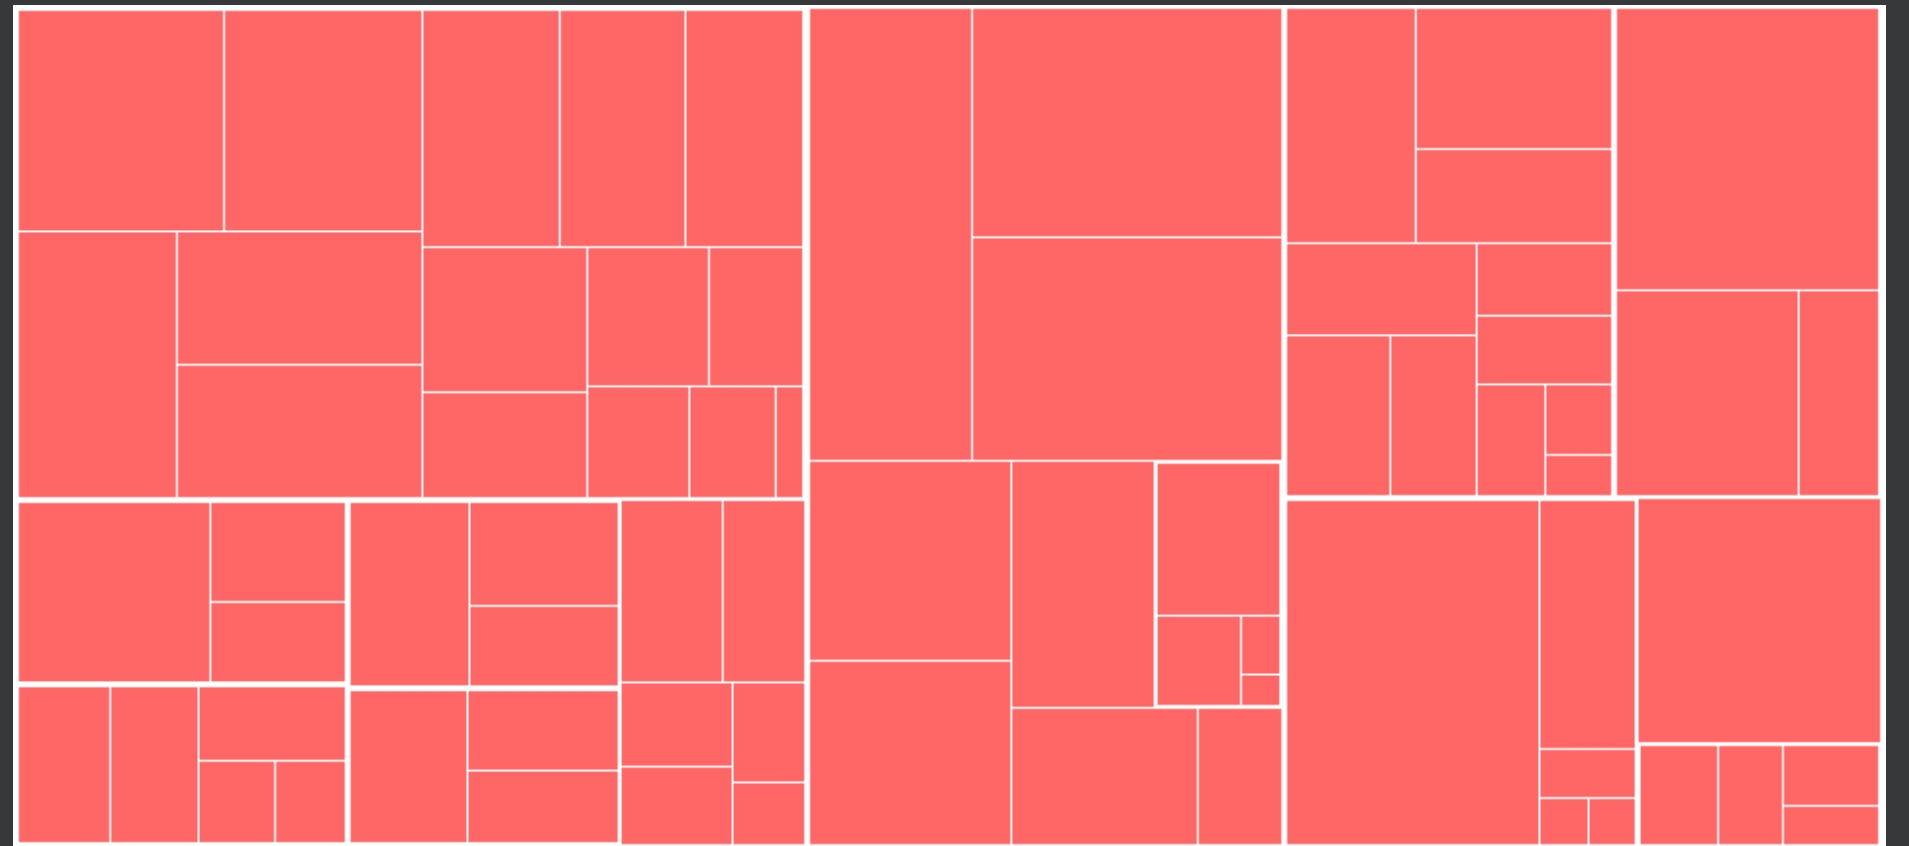

Incident Map
